His seminal work in the early 1970s identified ten primary roles that managers perform, grouped into three overarching categories: interpersonal, informational, and decisional roles. These categories reflect the multifaceted nature of management, emphasizing that managers are not merely planners or organizers but are also communicators, negotiators, and decision-makers. Mintzberg’s framework challenges traditional, overly simplistic views of management by highlighting the complexity, variability, and dynamic nature of managerial work. His roles serve as a practical guide for understanding the real-world functions managers undertake and provide a foundation for leadership development, organizational design, and performance evaluation.

Interpersonal Roles

The interpersonal roles revolve around managing relationships and representing the organization externally and internally. These roles are essential for building networks, motivating teams, and establishing organizational legitimacy.

1. Figurehead

As a figurehead, the manager embodies the organization’s values and acts as a symbolic representative during ceremonial duties, meetings, and social functions. This role involves performing duties that are official and symbolic, such as signing documents, attending social events, or hosting visitors. Significance: While seemingly superficial, the figurehead role fosters organizational identity and external legitimacy. It helps build trust with stakeholders and enhances the organization’s public image. external entities. Significance: Liaisons help organizations access vital information, resources, and opportunities through their networks. Implications: Successful liaison roles require interpersonal skills, credibility, and the ability to navigate complex social environments.

Informational Roles

The informational roles involve collecting, processing, and disseminating information vital for organizational decision-making and strategic planning.

4. Monitor

Managers as monitors continuously scan their environment for information relevant to organizational operations. This involves reading reports, attending meetings, and staying informed about industry trends.
