Dive in and discover the secrets to soulful, expressive blues guitar.

Understanding the Blues Scale and Its Role in Licks

The Blues Scale Explained

The blues scale is a variation of the minor pentatonic scale with an added "blue note" — typically a flattened fifth (or diminished fifth). This unique note gives blues music its characteristic sound and emotional depth.

1. **Minor Pentatonic Scale:** 1, b3, 4, 5, b7
2. **Blue Note:** b5 (flattened fifth)

Constructing the Blues Scale

For example, in the key of A, the A blues scale is: A, C, D, Eb, E, G, A. This scale forms the basis for most blues licks and improvisations.

Classic Blues Licks to Get You Started

1. The Basic Pentatonic Bend

A fundamental blues lick involves bending the note on the 3rd fret of the high E string (G note) up a whole step to sound like an A note. This bend creates a soulful, expressive sound.

1. Position: 3rd fret, high E string
2. Technique: Bend the note up a whole step, then release or hold for expression

Practice this bend until it sounds smooth and in tune, as it’s a staple in blues solos.

2. The Turnaround Lick

The turnaround is a classic blues phrase that signals the end of a phrase and leads back into the main groove. A common turnaround in A blues is:

```
e|-5b7r5-|
B|-5--5-|
G|---6--6-|
D||
```

```
A||
E||
```

This lick uses a combination of bends and notes from the pentatonic scale to create a memorable phrase.

3. The Call-and-Response Lick

This involves playing a phrase (call) followed by a short response, mimicking a conversation. An example in A:

```
e|-5-|
B|-5h6p5--5-|
G|-5h7--6-|
D||
A||
E||
```

Experiment with different note combinations to create your own call-and-response patterns.

4. The Slide Lick

Sliding between notes adds expressiveness. For example, slide from the 2nd fret to the 4th fret on the G string (D to E), then bend the E note for a soulful sound.

```
G|--2/4-|
D||
A||
E||
```

Sliding into notes can imitate vocal slides, adding a human element to your playing.

5. The Double-Stop Lick

Playing two notes simultaneously (double stops) enhances the harmonic richness. An example in the key of A:

```
e|--5--5-|
B|--5--5-|
G||
D||
A||
E||
```

Combine double stops with bends and slides for more complex licks.

6. The Chromatic Passing Tone

Adding chromatic notes between scale tones creates tension. For example, approaching the 5th fret (E) from the 4th fret (Eb) adds a bluesy flavor:

e|--4-5-|

This passing tone can be incorporated into longer phrases for a more expressive sound.

Blues licks you can use are the essential building blocks for any guitarist looking to master the soulful, expressive sound of the blues. Whether you're soloing over a classic 12-bar progression or improvising during a jam session, understanding and practicing a variety of blues licks can significantly elevate your playing. These licks serve as a toolkit that captures the emotion, groove, and storytelling nature of the blues, allowing you to craft compelling solos that resonate with listeners. In this guide, we'll explore the core concepts behind blues licks, break down some of the most iconic patterns, and provide practical tips to incorporate them into your playing.

The Importance of Blues Licks in Guitar Playing

Before diving into specific licks, it's crucial to understand why they are such a vital component of blues guitar. Blues licks are short, melodic phrases that often feature characteristic bends, slides, and expressive techniques. They function both as standalone phrases and as parts of larger solos, helping to tell a story and evoke emotion.

By mastering these licks, you'll develop a personal vocabulary that allows you to improvise fluidly and authentically. Moreover, blues licks often incorporate elements of call-and-response, swing, and syncopation, making them a versatile addition to your musical toolkit.

Fundamental Concepts of Blues Licks

1. The Blues Scale

Most blues licks are built around the blues scale, a variation of the minor pentatonic with an added "blue note." For example, in the key of A, the blues scale is:

1. A, C, D, D (Eb), E, G

This scale provides a foundation for creating expressive phrases with the characteristic "bluesy" sound.

1. Common Techniques

1. Bending: Raising the pitch of a note to emulate vocal expressiveness.
2. Sliding: Gliding from one note to another smoothly.
3. Vibrato: Wiggling the note to add emotion.
4. Pull-offs and Hammer-ons: Rapid note changes that add articulation.
5. Double stops: Playing two notes simultaneously for harmonic interest.

1. Phrasing and Timing

Blues is as much about feel as it is about notes. Syncopation, swing feel, and space are integral to authentic blues playing.
