Title, metadata, and document properties

PDF metadata functions similarly to HTML meta tags. Title, author, subject, and keywords provide additional context to search engines. Setting a clear and relevant document title improves how Wagahai Wa Neko De Aru Japanese appears in search results and browser tabs.

Many PDFs are published with empty or default metadata, missing an opportunity for optimization. Updating document properties ensures that search engines receive accurate information about the content and purpose of the PDF.

Readable text formatting also matters. Proper paragraph spacing, bullet points, and consistent typography make PDFs easier for both readers and search engines to process.
