Understanding the Dark Side of the Internet

The "dark side" of the internet refers to websites, forums, and content that are difficult to access through standard search engines, often hosting illegal, violent, or morally questionable material. This includes: - Violent videos of real-world conflict and accidents - Content promoting illegal activities (drug trafficking, hacking, etc.) - Extremist propaganda and hate speech - Child exploitation material - Unregulated, unmoderated content that can be traumatizing or dangerous While some of this content may be accessed through the dark web via Tor or VPNs, a significant portion is available on surface web platforms that have minimal moderation or oversight.
