One of the most critical factors in evaluating SEO tools is the accuracy and comprehensiveness of their data, particularly backlinks and keywords.

Backlink Data

Ahrefs boasts a massive backlink database, claiming to have crawled over 12 trillion backlinks in 2019. Its data is known for being highly accurate and frequently updated, with a focus on freshness—users can see new backlinks within hours of discovery. This makes Ahrefs particularly valuable for backlink analysis, competitor backlink monitoring, and link-building strategies. Semrush, on the other hand, also offers backlink data, but its database is generally considered smaller than Ahrefs’ in 2019. Semrush’s strength lies more in its integration of backlink data with other SEO metrics, rather than depth alone. Its backlink index is extensive but not as comprehensive or as frequently refreshed as Ahrefs’. Summary Table: | Aspect | Semrush | Ahrefs | |||| | Backlink database size | Large, but smaller than Ahrefs | Extremely large and comprehensive | | Data freshness | Good, but less frequent updates | Very frequent, near real-time updates | | Data accuracy | Reliable, but sometimes less detailed | Highly accurate and detailed |

Its position tracking feature allowed users to monitor rankings over time with daily updates. - Ahrefs’s Keywords Explorer offered accurate search volume, keyword difficulty, and click metrics. Its Rank Tracker was reliable, with weekly updates, but less granular than Semrush’s daily tracking. Bottom Line: Semrush’s tools are better suited for broad keyword research and competitive analysis, while Ahrefs excels in precise organic search metrics.

Backlink Analysis and Monitoring

- Ahrefs’s backlink profile analysis was, and remains, unmatched in depth and accuracy. Its Site Explorer provided detailed backlink data, including anchor texts, referring domains, and link growth trends. - Semrush offered backlink analysis with tools for identifying new links, toxic links, and competitor backlink strategies, but its database was less detailed than Ahrefs’ in 2019. Bottom Line: For backlink intelligence, Ahrefs was the clear leader in 2019.

Site Auditing and Technical SEO

- Semrush’s Site Audit tool was comprehensive, identifying over 100 technical issues, providing prioritized recommendations, and tracking improvements over time. - Ahrefs also provided a site audit tool, which was effective at detecting common SEO issues but was less feature-rich compared to Semrush in terms of integrations and actionable insights. Content and Competitive Analysis

- Semrush’s Content Marketing Toolkit allowed users to analyze top-performing content and optimize their own content strategies. - Ahrefs’s Content Explorer enabled discovering popular content based on backlinks and social shares, helping users identify content gaps and link-building opportunities. User Experience and Interface

In 2019, user interface and ease of use were significant differentiators. - Semrush’s interface was comprehensive but sometimes overwhelming due to its extensive features. It favored users interested in a holistic marketing platform, with dashboards that could be customized but required some training. - Ahrefs’s interface was praised for simplicity and clarity. Its clean design made navigating backlink profiles and keyword data straightforward, appealing to SEO specialists focused specifically on link and content analysis. User feedback in 2019 indicated that new users might prefer Ahrefs for its ease of learning, while experienced marketers appreciated Semrush’s broader scope.

Customer Support and Community

While Semrush provided a broader digital marketing toolkit, Ahrefs specialized in backlink and content analysis with unmatched data accuracy. What is a Semrush Vs Ahrefs 2019 PDF?

A PDF (Portable Document Format) is one of the most popular and reliable digital document formats in the world. Developed by Adobe in the early 1990s, the PDF format was designed to solve a common problem in digital documentation: maintaining a document's original appearance regardless of the device, software, or operating system used to open it. A Semrush Vs Ahrefs 2019 PDF ensures that text alignment, fonts, images, colors, charts, and layouts remain exactly as intended by the creator.

Unlike editable document formats such as DOCX or TXT, PDFs are primarily intended for viewing, sharing, and printing. This makes them ideal for professional, academic, and official purposes. A Semrush Vs Ahrefs 2019 PDF is often used for ebooks, study materials, tutorials, research papers, manuals, contracts, brochures, reports, and official documents where content integrity is essential.

One of the strongest advantages of a Semrush Vs Ahrefs 2019 PDF is its universal compatibility. PDFs can be opened on Windows, macOS, Linux, Android, iOS, and even directly in modern web browsers without the need for special software. This universal support ensures that anyone receiving the file will see the exact same content, regardless of their platform or device.

In addition, PDFs support advanced features such as embedded fonts, vector graphics, interactive elements, hyperlinks, forms, digital signatures, bookmarks, and metadata. This makes the Semrush Vs Ahrefs 2019 PDF not just a static document, but a powerful and flexible medium for information distribution. Security features such as password protection, encryption, and permission control further enhance the reliability of PDFs for sensitive or proprietary content.

How to create a Semrush Vs Ahrefs 2019 PDF?
Creating a Semrush Vs Ahrefs 2019 PDF is easier than ever thanks to modern software and online tools. Below are several common and effective methods you can use:

1. **Using Desktop Software:**
Many popular word processing and design applications allow users to export or save documents directly as PDFs. Microsoft Word, Google Docs, LibreOffice Writer, Apple Pages, Adobe InDesign, and even PowerPoint all include built-in PDF export features. Simply create your document as usual, then choose “Save as PDF” or “Export to PDF” from the file menu. This method ensures high-quality output with accurate formatting.

2. **Print to PDF Feature:**
Most modern operating systems, including Windows, macOS, and Linux, offer a built-in “Print to PDF” option. This feature allows you to convert virtually any printable document into a PDF file. When printing, simply select “Print to PDF” as the printer. This method is especially useful for converting web pages, invoices, or application outputs into a Semrush Vs Ahrefs 2019 PDF without additional software.

4. **Mobile Applications:**
Smartphone apps can also create a Semrush Vs Ahrefs 2019 PDF. Some PDFs are created from scanned images, which require Optical Character Recognition (OCR) to convert images into editable text. Additionally, protected PDFs may restrict editing, copying, or printing unless the correct password or permissions are provided.

For minor changes, such as adding comments, highlighting text, or inserting notes, free PDF readers often include annotation tools. These features are useful for reviewing, studying, or collaborating on a Semrush Vs Ahrefs 2019 PDF without altering the original content.
